SUPPLEMENTARY INFORMATION:

Title: Title: Importation of Fresh (Frozen or Chilled) Pork or Pork Products Into the United States.

OMB Number: 0579-xxxx.

Type of Request: Approval of an information collection.

Abstract: Under the authority of the Animal Health Protection Act (7 U.S.C. 8301 et seq.), the Animal and Plant Health Inspection Service (APHIS) regulates the importation of certain animal and poultry products and byproducts to prevent the introduction of pests and diseases of livestock and poultry into the United States. These regulations are found at 9 CFR parts 94, 95, 96, and 122.

The regulations require a number of information collection activities to prevent the introduction of livestock and poultry diseases and pests via the importation of animal and poultry products and byproducts, including fresh (frozen or chilled) pork and pork products, into the United States. For fresh pork and pork products, these include certification of the pork or pork

products by foreign national governments; application of seals; if a seal is broken, information on where and why; requests for approval of defrost facilities and for hearings regarding denial or termination of approval; applications for importing small amounts of pork or pork products for analysis, testing, or examination; cooperative service (trust fund) agreements; notifications to Federal inspectors of the arrival in the United States of pork or pork products from foreign regions; and recordkeeping.

These activities are currently approved by the Office of Management and Budget (OMB) under OMB control number 0579-0015, which also covers information collection activities for a variety of other animal and poultry products imported into the United States. We are proposing to separate the commodities previously approved under OMB control number 0579-0015 into individual collections to better reflect the commodities' specific collection activities and account for the information APHIS collects. Once approved by OMB, only information collection activities associated with the importation of nonfood animal and poultry products and byproducts will be under OMB control number 0579-0015. Information collection activities for fresh pork or pork products and other commodities now covered under OMB control number 0579-0015 will receive new numbers when approved.

We are asking the Office of Management and Budget (OMB) to approve our use of the information collection activities related to importation of fresh (frozen or chilled) pork or pork products for 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 84.96126418 hours per response.

Respondents: Foreign national governments; shippers' crews; inspectors; defrost facility operators; processing facility operators; laboratories, museums, and States; and meat processing facility operators.

Estimated annual number of respondents: 93.

Estimated annual number of responses per respondent: 66.344086.

Estimated annual number of responses: 6,170.

Estimated total annual burden on respondents: 524,211 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 21<sup>st</sup> day of February 2012.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.
